

Reopen Your Parking Facility with Confidence

When your parking facility reopens, your customers will be expecting elevated levels of cleaning. To meet their expectations and help keep parking customers and team members safe, you need enhanced surface cleaning and disinfection.

ABM has developed the **ENHANCED Clean**  program to help you deliver a healthy environment.

Address High Touch Points

Paying extra attention to **high touch points** and surfaces

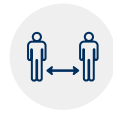

Creating a **touch-free** valet experience with disposable steering wheel and stick shift coverings

Create Safer Spaces

Providing **PPE** for all team members

Implementing workplace **social distancing** practices

Deliver a Well-Trained Workforce

- "Return to Work" safety training
- Ongoing training on public health safety practices
- 20-second hand washing practice
- Coughing and sneezing etiquette
- Daily Moment for Safety before the start of each shift
- Safe work observation programs (SWOPs)

Let Us Help You Get Back Up and Running Safely

Rely on ABM's supply chain, staffing capability, and expertise to help you reopen and maintain a healthier lot or garage.
